BEST FINANCIAL PAGE IN WASHINGTON

STOCKS CONTINUE LANSTON SHOWS

Losses of from One to to Three Points.

New York, July 8.—There was a quiet opening in the stock market today, and any new speculative impulse was missing.

There was no development to lessen the result of proceedings on the New York

There was no development to lessen the uncertainty appertaining to munition shares and specialities.

At the start variable tendencies marked the general list, but the first irregular prices were but slightly changed in either direction. A fractional advance characterized the start of United States Steel, but in the first few moments of the trading this improvement disappeared. As the result of proceedings on the New York ange. Lanston Monotype was quoted at 82 1-2. New York orders being large. There was a good market for American Graphophone in New York, sales being reported at 154 to 156, for both common and preferred.

Loan Rates Higher.

With an increasing demand for loans, local bankers are holding out for a 5 higher, but little progress was made by higher, but little progress was made by that stock. Extreme duliness showed in Standard rails, which inclined to heavi-ness, and pressure was directed against the munition issues and specialties.

There was an accentuation of the weak-ness among prominent industrials of the war order type as the session advanced. Losses from one to three points were shown in American Zinc, Distillers Se-curities, Industrial Alcohol, Crucible Steel, American Locomotive, Mercantile Marine preferred, Maxwell Motors, Studebaker Corporation, and similar issues. Trading showed but little activity and it was clear that the dealings were pro-

In the closing half of the session proessional selling pressure let up some-rhat, and prices hardened a little, some f the specialties and particularly Industrial Alcohol, rallying well. There was othing, however, that worked for a sharp general recovery, and the market

COTTON MARKETS.

New York, July 8.—While firmer, the action of he cottom market today from a bullish stand-orni was looked upon as disappointing, as there ere numerous private reports of heavy, damag-ing rains in the central and eastern sections of he belt, with predictions for their continuance over unday. Sunday.

In the final dealings selling was checked by advices that the recept rains were the most terrific ever witnessed in the South and that crops were aftest in many places. It was indicated that boll weekla showed increased activity. Last quotations showed a set gain of four to six points.

Spot. at Liverpool was neglected at an advance of four points, on the basis of 8,066 for mid-upland. Futures in the English market closed steady at a net decline of bia2 points. Spot here was quiet and five points higher at 13,15c; there were no sales. Pett receipts for the day were about 8,000 bales.

War Order Industrials Show Despite Closed Market Here, Orders from New York Are Heavy.

local bankers are holding out for a 5 per cent rate on high-grade security and 6 per cent on small accommodations. Although rates for money have advanced in New York and other large cities of the East, there has been no signs strength in interest figures here.

Bank Admitted.

The Corn Exchange Bank one of the largest institutions in ? - York, has been admitted to membersh; in the Federal Reserve System.

Liquidation Expected.

The following analysis of the New York market was received yesterday by W. B. Hibbs & Company from Logan & Bryan: "We still incline to the belief that influences covering the industrial section of the list, especially the war stocks, are not encouraging to take a position on the long side, and further liquidation will probably be witnessed. On recessions, conservative interests are inclined to buy the good rails, but unsettled labor disputes restrict aggressive bull operations in this quarter."

There were only two cities in the United States with a population of more than 300,000, whose revenue receipts exceed current governmental expenses and interest during the fiscal year. These were Washington and St. Louis, where the excess amounted respectively to \$2,440,356 and \$217.73. These figures were made public by the Census Bureau yesterday.

Cities under 300,000 and over 100,000 which showed excesses of revenues over expenditures were: Spokane and Tacoma, Wash.; Jersey City, N. J.; Dayton, Ohio; Denver, Col.; Birmingham, Ala., and At-

lanta, Ga.

Boston spent the most money per capita for all governmental costs, including interest and oulays, with \$40.72. Norristown, Pa., spent \$6.53 per capita, the lowest in the United States.

The net indebtedness of New York—nearly two-thirds that of all cities over 30,000— is \$22.753.859. Philadelphia is second in indebtedness.

nd in indebtedness, with a total of \$101,-

CHICAGO GRAIN MARKET.

Chicago, July &-The first black rust claim of Chicago, July &—The first black rust claim of the season from the spring wheat country was ushered into the wheat pit today. The report caused a rush of buying by shorts and impastors that car-ried values up \$45.50. Had not some of the larger holders furnished the wheat sought, the up-turn would have been more sensational. A message, re-ceived by a private wire house, said to have come from Ypsilanti, N. D., declared black rust has made its appearance in the wheat fields near that town. W. Snow, the well-known crop expert, said

B. W. Snow, the well-known crop expert, said that the plant is not far enough advanced to be attacked by black rust and that the disease makes its appearance near Fpsilanti, N. D., yearly, without doing any great amount, if any, damage. The net gains in wheat at Chicago today were ZisaNic. The Canadian Northern Railway, of Toledo, in a message today, points out that the weather previailing over the western provinces from the eastern boundary of Manitoba to the Rockies is generally favorable.

lavorable. Com closed %a%c higher, and outs were up %alc. Both markets ralled from their opening prices on the strength displayed by wheat. There was eridence of new buying in both these grains.

Copper Stockholders Reaping Dividend Harvest

Holders of high-grade copper stocks are faring handsomely "rough receipt of attractive quar-ly dividends. And there is a strong possibility that before long a substantial market appreciation will take place in these securities. This prospect, with the present high rate of dividends, and the probability of increased disburse-ments, makes the coppers an ideal investment proposition.

q Free statistical Copper Book sent upon request, together with circular naming best purchases among the dividend payers. Ask for 21-W, including booklet explaining "The Twenty Payment Plan"
